system will be. In today's times, especially, when there's so much talk about building our immunity, we simply cannot let our mouths be breeding grounds for germs. An educational campaign by Dabur Red Paste, which is India's no.1 Ayurvedic toothpaste as per Nielsen's 2019 data, helps drive home this point. Among the recommendations cited to maintain good oral hygiene include brushing your teeth twice daily, rinsing your mouth after every meal, changing your toothbrush every three months and, most importantly, using a toothpaste that helps in fighting germs.

Covid-19 Lockdown Could be Extended by 2 Weeks 07.04.2020

The Centre is leaning towards extending the ongoing three-week lockdown announced to contain the coronavirus disease (Covid-19) at least till the end of this month, a senior government official said on Tuesday, while also pointing out that several states have suggested backing such a move. The Union health ministry, however, clarified that there was no decision on extending the nationwide lockdown yet, asking people not to speculate. The sweeping restrictions, including ban on public transport as well as commercial rail and air travel, came into force on March 25 and

Description:

Prashant Kishor, the first from the Janata Dal United camp to raise his voice against the amended citizenship law, on Monday waded right back into the political row over the law, the protests that erupted in Delhi and the assembly elections on February 8. In a tweet that appeared to be a sharp counter to Home Minister Amit Shah, Kishor said the EVMs in Delhi would only be pressed with love on 8 February. "The jolt should be dealt softly so that brotherhood and harmony are not endangered," Prashant Kishor tweeted in Hindi without taking any names.

Action Taken:

The remark comes just a day after Amit Shah, who is leading the Bharatiya Janata Party offensive against Arvind Kejriwal's Aam Aadmi Party in Delhi, told voters to press the Electronic Voting Machines with such anger that its current (poll result) is felt at Shaheen Bagh. Prashant Kishor's counter to Amit Shah isn't his first. He has rebutted the Union Home Minister on more than one occasion during the last month over the citizenship law, remarks that have angered many within the Janata Dal United as well as the BJP. JDU boss and Bihar chief minister Nitish Kumar has, however, rejected suggestions that the party take action against Prashant Kishor for going against the JDU line on CAA. Prashant Kishor-led political consultancy firm I-PAC, has teamed up with AAP for the Delhi elections.

Remarks / Notes

Remarks / Notes

The remark comes just a day after Amit Shah, who is leading the Bharatiya Janata Party offensive against Arvind Kejriwal's Aam Aadmi Party in Delhi, told voters to press the Electronic Voting Machines with such anger that its current (poll result) is felt at Shaheen Bagh.

Student Management > Mark Attendance

When a Class, Section and Month/Year combination is selected, an Attendance Register appears first for the entire month in the form of colorful bar. As indicated through legends, all the dates in that particular month for that particular class are marked Holidays and Weekends in **Yellows** and **Blues**. The remaining have again two colors- **Green**- for dates for which attendance is already marked, and **Grey**- for dates for which attendance are yet to be marked. In all these colored dates, only **Grey** dates are active and rest inactive. Clicking on a **Grey** colored date further opens the students list where attendance can be marked for all students for that particular date. Once saved, the **Grey** date turns into **Blue** date (attendance marked) and becomes inactive.

Integrations in EDUCENT

The EDUCENT software is integrated with various tool and third party services to make it convenient to perform various useful functionalities.

- SMS Messaging for sending important messages (individual/bulk) to stakeholders from the software.
- Auto Notifications- to trigger predefined messages at various functions into software like- enquiry, admission, staff entry, complaint, attendance, fee generation, fee overdue, fee payment, book issued from library, book overdue and many others.
- Email integration for sending Emails to stakeholders from the software itself
- RFID integration for auto attendance marking for students
- Biometric integration for auto attendance marking for staff
- Payment Gateway integration for paying fee by parents
- GPS integration for live tracking of school vehicles by admin and parents. Auto notification is triggered to respective parents mobile no. when the school vehicle is about to reach at their pick-up/drop points. Auto notification is triggered to admin if the school vehicle diverts from the scheduled route.
- IP Camera integration for recording incidences into school vehicles.
- Android and iOS Apps for parents & students.

Roles (Dashboards) in EDUCENT

'Roles' is for software purpose which defines access type (dashboard type) for a user. There are following 5 'system defined' (default) roles and dashboards in EDUCENT software -

- Admin
- Teacher
- Accountant
- Librarian
- Front Office

Apart from above 5 'system defined' 5 roles/dashboards, school can create other roles & dashboards as well. They are called user defined roles/dashboards. All roles/dashboards (both system defined and user defined) are fully dynamic- means school themselves can set modules for different roles/dashboards and define access and authorizations for each of them- module wise, sub-module wise, function wise and access wise- add, edit, delete and view.

To create & define Roles, go to [User Management > Assign Role](#). Notice 'system defined' and 'user defined' under 'Type' head of roles table in the below screenshot.

Class Teacher Remarks

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
